Objective

Aspiring Python developer eager to start a professional career by applying Python fundamentals, logical thinking, problem-solving skills, and continuous learning in a growth-oriented organization.

Technical Skills

- **Programming Languages –** Python
- **Web Technologies –** HTML ,CSS, Java Script and React Js
- **Frameworks –** Django
- **Database –** MySQL
- **Familiar with –** Git, Github ,Vs Code and Linux

Projects

◇ **E-Commerce Web Application (Django + React)** **Link**

- Developed a full-stack E-commerce website using Django and React.js.
- Implemented features like user authentication, product listing, cart, and orders.
- Connected frontend and backend using REST APIs and Axios.
- Managed source code using Git & GitHub with clean project structure.
- Planning to enhance the project further by adding payments, admin dashboard, and performance improvements.

◇ **Project: Portfolio Website** **Link**

- Created a personal portfolio website to showcase my projects and skills.
- Built a responsive user interface using HTML, CSS, JavaScript / React.js.
- Added sections like About, Projects, Skills, and Contact.
- Deployed the website using Netlify for live access.
- Used Git & GitHub for version control and project management.
- Planning to enhance the portfolio further with better UI and additional features.
-
